Dear Patient,

It is an honor to serve as your primary care doctor and I look forward to continuing to serve you and our community. Having opened my direct primary care practice almost two and a half years ago fees have not been raised. Washington law states that I am to give you 60 days notice of any monthly fee change and that monthly fee adjustments may not occur in the first 12 months of a person's enrollment. However, because I so much value our relationship, I am not planning to make the following adjustments until July 1, 2020. Taking into account my practice costs, my new simplified **fee schedule as of July 1, 2020** will be:

All ages: \$75/month for individuals  
2<sup>nd</sup> family\* member to join: \$50/month  
3<sup>rd</sup> family\* member to join: \$25/month  
Family\* maximum: \$150/month

\*Family is defined as 2 adults and unlimited dependent children in the household.

Based on the first two years of practice I also wanted to update my policies for clinic and home visits. Beginning **January 1, 2020** your enrollment will cover:

Up to 12 clinic visits per year (additional visits will be charged a nominal fee of \$25 per visit).  
One home visit per year (additional home visits will be charged \$75 per visit).

It is my intention to provide you and your family the best possible primary care that is personal, affordable and convenient. If you have any questions or suggestions on how I can better serve you please do let me know. My goal is for everything associated with my practice to be transparent and straightforward. It truly is an honor to be part of your life as your doctor, and I look forward to many years ahead working with you to achieve the best sense of wellbeing possible!

With gratitude,

Lissa Lubinski MD
